A bill for an act
relating to climate change; amending state greenhouse gas reduction goals; requiring
governmental actions to be consistent with state greenhouse gas reduction goals;
increasing the frequency of a report; amending Minnesota Statutes 2020, sections
216H.01, by adding subdivisions; 216H.02, subdivision 1, by adding a subdivision;
216H.07, subdivision 3.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2020, section 216H.01, is amended by adding a subdivision
Section 1. Minnesota Statutes 2020, section 216H.01, is amended by adding a subdivision
to read:

Subd. 1b. **Governmental action.** "Governmental action" means activities, including
projects wholly or partially conducted, permitted, assisted, financed, regulated, or approved
by a governmental unit.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 2. Minnesota Statutes 2020, section 216H.01, is amended by adding a subdivision to
read:

Subd. 1c. **Governmental unit.** "Governmental unit" has the meaning given in section
116D.04, subdivision 1a.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2020, section 216H.01, is amended by adding a subdivision to
read:

Subd. 1d. **Net zero.** "Net zero" means:
(1) statewide greenhouse gas emissions equal to zero; or

(2) the balance of annual statewide greenhouse gas emissions minus any terrestrial
sequestration of those emissions equals zero or less.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2020, section 216H.01, is amended by adding a subdivision to
read:

Subd. 1e. Terrestrial sequestration. "Terrestrial sequestration" means the amount of
annual statewide greenhouse gas emissions that is removed from the atmosphere by plants
and microorganisms located in Minnesota and securely and durably stored in vegetation,
biomass, and soils, so as to prevent them from reaching the atmosphere, as estimated by
the commissioner of the Pollution Control Agency.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 5. Minnesota Statutes 2020, section 216H.02, subdivision 1, is amended to read:

Subdivision 1. Greenhouse gas emissions-reduction goal. (a) It is the goal of the state
to reduce statewide greenhouse gas emissions across all sectors producing those emissions
to a level at least 15 percent below 2005 levels by 2015, to a level at least 30 percent below
2005 levels by 2025, and to a level at least 80 percent below 2005 levels by 2050, by at
least the following amounts, compared with the level of emissions in 2005:

(1) 15 percent by 2015;
(2) 30 percent by 2025;
(3) 45 percent by 2030; and
(4) to net zero by 2050.

(b) The levels targets shall be reviewed based on the climate change action plan study,
annually by the commissioner of the Pollution Control Agency, taking into account the
latest scientific research on the impacts of climate change and strategies to reduce greenhouse
gas emissions published by the Intergovernmental Panel on Climate Change. The
commissioner shall forward any recommended changes to the targets to the chairs and
ranking minority members of the senate and house of representatives committees with
primary jurisdiction over climate change and environmental policy.

**EFFECTIVE DATE.** This section is effective the day following final enactment.
Sec. 6. Minnesota Statutes 2020, section 216H.02, is amended by adding a subdivision to read:

Subd. 1a. Greenhouse gas emissions reductions; governmental actions. (a) Governmental units shall incorporate the statewide greenhouse gas emissions reductions targets of subdivision 1 into all aspects of their activities, including, but not limited to, planning, regulatory, funding, and permitting.

(b) Governmental actions must be consistent with the statewide greenhouse gas emissions reductions targets of subdivision 1.

(c) A governmental action may not disproportionately increase the level of pollution, contamination, or other harmful environmental or health impacts in an environmental justice area compared to the average in other areas within the governmental unit's jurisdiction.

(d) For the purposes of this subdivision, "environmental justice area" means an area in Minnesota:

(1) that is within Indian country, as defined in United State Code, title 18, section 1151; or

(2) in which, based on the most recent data published by the United States Census Bureau:

(i) 50 percent or more of the population is nonwhite; or

(ii) 40 percent or more of the households have an income at or below 185 percent of the federal poverty level.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 7. Minnesota Statutes 2020, section 216H.07, subdivision 3, is amended to read:

Subd. 3. Biennial Annual report. (a) By January 15 of each odd-numbered year, the commissioners of commerce and the Pollution Control Agency shall jointly report to the chairs and ranking minority members of the legislative committees with primary policy jurisdiction over energy and environmental issues the most recent and best available evidence identifying the level of reductions already achieved and the level necessary to achieve the reductions timetable in section 216H.02.

(b) The report must be in easily understood nontechnical terms.

EFFECTIVE DATE. This section is effective the day following final enactment.
